

# AMAZING SCIENCE!

After School ✨ Workshops ✨ Special Events

**WINTER & SPRING 2013**  
**AFTER SCHOOL PROGRAM - ALL SCHOOLS!**

OVER  
for  
SCHEDULE!

Amazing Science creates a sense of wonder and excitement that encourages kids to explore the sciences while having great fun! Students are exposed to a different science topic each week, and encouraged to be fearless and *try everything!*

Two sessions of all different science lessons, unique and fun demos, hands-on projects and experiments in chemistry, physics, geology, and biology! **Color exploding milk**, test for pollution in **water chemistry lab**, shake with **earthquakes**, **dig for fossils**, “gold” panning techniques, and more!

***All experiments are kid safe and fully supervised.***

**Amazing Science has over \$10,000 in materials and equipment available to the Program!**

Our curriculum is specifically designed to advance students in science, and includes scientific methodology and critical thinking skills that will serve as the foundation for all future learning.

**Curriculum is age appropriate: older students lessons are more challenging and complex.**

Amazing Science is a program of Watershed Preservation Network, a California non-profit environmental education organization.

**REGISTRATION: *Please visit our website for links to the Recreation Departments online sign up.***

**FOR CLASS QUESTIONS, please email: [amazingscience@wpn.org](mailto:amazingscience@wpn.org)**

**Workshops For Schools/Groups - Performances For Assemblies/Special Events.**

**Coast Miwok Life** - Twist grass into rope, clamshell bead making, archaeological dig with arrowheads.

**Wild Storms** - Thunder, Lightning, Electricity, Air Pressure, Weather and Tornados.

**Gold Rush Experience** - Pan for “gold,” wilderness survival, navigation & knot tying, Victorian life.

**Minerals & Crystals** - Geology of minerals & crystals, rock identification tests - Keep what you find!
